

Chaperone Policy

At Cambunny, we fully support any performer who wishes to bring a chaperone, especially when working with a new photographer. Some models choose to have a chaperone for every shoot. While not required, it is a valid and encouraged safety measure.

Chaperones **are not permitted inside the shooting space** during filming, to ensure comfort and focus for all involved. However, they may remain nearby—such as in an adjacent room, attached bathroom, or another floor—based on the shoot location.

For legal and insurance purposes, chaperones must be verified and identifiable. We require a signed declaration and at least **two forms of ID** from any chaperone present at a shoot.
