

Model Limit Paperwork

Limits & Consent Overview

This document must be completed and submitted at least once every 6 months. This ensures that the model's boundaries are regularly reviewed and respected. A model may update this form at any time to add or remove activities. Actively reviewing and confirming limits is essential for personal comfort and consent.

A model will never be asked to perform any act not selected on this form. Selection does not imply obligation—consent can be withdrawn at any time. For general shoot days, a rough outline of activities will be provided. For themed or structured productions (e.g., sci-fi, B-movie shoots), a full script will be shared in advance.
